Welcome to the **Local Spending Authorization Reporting Form** for the North Carolina opioid settlements.

Before spending opioid settlement funds, a local government must authorize the expenditure of such funds in a manner that satisfies BOTH the requirements set forth in the Memorandum of Agreement (MOA) AND the state law requirements set forth in the Local Government Budget and Fiscal Control Act. To learn more about these MOA and state law requirements, read the new guidance drafted by the NC Department of Justice (NC DOJ) available on the [NC MOA Resource Center](https://www.ncdoj.gov/moa-resource-center).

This Opioid Settlement Local Spending Authorization form ONLY concerns local government compliance with the MOA. While local governments must also satisfy the state law requirements set forth in the Local Government Budget and Fiscal Control Act, that is not covered in this form.

In order to authorize the expenditure of opioid settlement funds in a manner consistent with the MOA, a local government must adopt a resolution, settlement project ordinance, or capital project ordinance that states the specific strategies to be funded and states the amount dedicated to each strategy for a specified period of time. (The terms “settlement project ordinance” and “capital project ordinance” are defined in **NCGS § 159-13.2(a) as amended by SL 2024-1**.) This information must be reported to CORE-NC within 90 days of the passage of this resolution or ordinance. View sample language for counties authorizing opioid settlement funds [here](https://www.ncdoj.gov/moa-resource-center).

An overview of the questions included in this form can be found [here](https://www.ncdoj.gov/moa-resource-center). Please make sure to have all the required information available before beginning this form.
